

# MATERIAL SELECTION STATION

## FEATURES:

The material selection station consists of several manifolds. Manifolds with rapid-service couplings are designed to select material quickly and keep the pipeline vacuum & clean.

## SPECIFICATION

Model		1.5"	MSS-215	MSS-315	MSS-415	MSS-515	MSS-615
		2"	MSS-220	MSS-320	MSS-420	MSS-520	MSS-620
Ports of per manifold			2	3	4	5	6
Dimension (W*D*H)	1.5"	CM	40*29*32	40*41*44	40*53*66	40*65*88	40*77*100
	2"		40*29*32	40*41*44	40*53*66	40*65*88	40*77*100
Approx. weight	1.5"	KG	4.0	5.0	6.5	8.0	9.5
	2"		5.0	6.0	7.5	9.0	10.5
Remarks			1.Material selection station is designed by manifolds of customer's requirement. 2.We reserve the right to change specifications without prior notice.
